REFERENCE

As of the year 2005, the company of Enemona AD-MP has been operating with Oscar-El Ltd. along two main lines:

- Designing, manufacturing and delivery of electrical control panels for Enemona AD-MP
- Delivery of electrical equipment for Enemona AD-MP

Early in 2005, Oscar-El Ltd. succeeded in designing, producing and delivering 450 panels of various types, such as lighting and control switchboards, within two months, thus meeting the deadlines specified in the contract. The panels were produced with high professional competence and all requirements were met.

During the deliveries of the electrical equipment, the company Oscar-EL Ltd. worked accurately, correctly and in an expedient manner. The company can always be relied upon to provide professional technical advice for the selection of suitable equipment and alternative price solutions. The equipment is delivered on time and is accompanied with the required quality certificates.

In both respects – production of control panels and delivery of electrical equipment – the experts of Oscar-El Ltd. and Enemona AD-MP enjoyed very good communication.

The correct, competent and professional services of the company of Oscar-El Ltd. have made it the preferred supplier of control panels, equipment and services.
